# *Early Childhood Education*

## *Yom Limmud*

### **CLASS DESCRIPTIONS**

#### **Art: Props, Process, and Progress with Carrie Shames Walinsky**

This session will be an exploration of sensory opportunities using art materials in the ECE classroom. You will be able to use these ideas creatively in your classroom.

#### **Infant-Toddler STEM: Bringing Science and Math into the Classroom with Alessandra (Ali) Gonzalez**

This training provides opportunities for infant-toddler educators to explore, understand, and practice ways to incorporate science and math activities into the classroom.

#### **Stress Management and Mindfulness for Teachers, Parents, and Children with Peter Moses**

Joy, creativity and relaxation are our birthright. Participants will rediscover their innate abilities to adapt to changing professional and personal circumstances. Topics will include mindfulness practices and games, relaxation, present-tense orientation, time and information management, keys to well being and more stress-free relationships.
